

Superior Comprehensive Outdoor Park and Open Space Plan

Rettler Corporation – Assisting the City of Superior

Rettler Corporation, a site based design firm located in Steven Point, Wisconsin, has recently been retained by the City of Superior to assist in developing a Comprehensive Outdoor Park and Open Space Plan. Rettler Corporation is an award winning design firm with services including Landscape Architecture, Civil Engineering, Construction Management and Land Survey.

Kick Off Public Input Meeting

A project kick off meeting was held on March 9, 2010 at the Superior Library meeting room. The meeting included an open house session; open for the public to discuss any needs or concerns regarding the existing park facilities. Approximately 25 people attended this event. A short presentation was given by Mary Morgan, Superior Park Director, discussing the purpose of the study as well as an overall project schedule. Several people in attendance offered suggestions for proposed park improvements, including written comments for review by City Staff and Rettler Corporation.

Additional meetings will be held with existing user groups as well as City Staff to determine a comprehensive list of needs and proposed improvements to existing parks and specific park facilities.
