

City of Superior Citizen Stream Monitoring Program
Volunteer Registration

Name: _____

Email address: _____

Address: _____

Telephone: _____

Faxon Creek location: _____

Are you volunteering on your own behalf? Yes No

Be Safe, Not Sorry!

- Always tell someone where you are going and when you plan to return.
- If possible, take a friend with you in the field.
- Use EXTREME caution when wading or entering the stream—deep holes are common in fast-moving streams and rivers; rocks can also be very slippery.
- If a streambank is too steep, don't attempt it.
- Consider wearing a Personal Flotation Device (life preserver) at sites with deeper water.
- Know what poison ivy and wild parsnip look like – they are poisonous.
- Wear goggles or rubber gloves when recommended on fact sheets.
- Wash your hands after you return from the field; do not touch your face until you do!
- For more resources on how to monitor stream check out:
wateractionvolunteers.org/resources/video-library/

By signing, I agree to monitor and check water quality of stream in accordance with safety tips and terms listed above.
